INDEPENDENT AUDITORS' REPORT

To the Health System Committee  
Lincoln County Health System  
Lincoln County, Tennessee

We have audited the accompanying financial statements of the Lincoln County Health System (as described in Note A to the financial statements) as of and for the years ended June 30, 2010 and 2009. These financial statements are the responsibility of the Lincoln County Health System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note A, the financial statements present only the Lincoln County Health System and do not purport to, and do not, present fairly the financial position of Lincoln County, Tennessee, as of June 30, 2010 and 2009, and the changes in its financial position and cash flows, where applicable, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

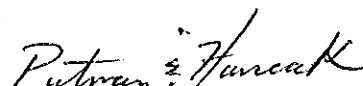

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Lincoln County Health System as of June 30, 2010 and 2009, and the changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2010, on our consideration of Lincoln County Health System's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 4 through 8 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying financial information listed as other financial information in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Lincoln County Health System. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the financial statements taken as a whole.

<p style="text-align: center;"><b>LINCOLN COUNTY HEALTH SYSTEM</b> <b>A Component Unit of Lincoln County, State of Tennessee</b> <b>Management's Discussion and Analysis</b></p>
--

Our discussion and analysis of Lincoln County Health System's (System's) financial performance provides an overview of the System's financial activities for the fiscal years ended June 30, 2010 and 2009. Please read it in conjunction with the System's financial statements, which begin on page 9.

### **Financial Highlights**

- The System's net assets increased in the past year with a \$1,935,491 or 9.0 percent increase in 2010 and \$486,380 or 2.3 percent increase in 2009.
- The System reported an operating income in 2010 of \$2,488,031 and an operating income in 2009 of \$777,407. Income in 2010 increased by \$1,710,624 or 220.0 percent over the income reported in 2009. Operating income in 2009 increased by \$754,415 or 3,281.2 percent.
- Non-operating revenues decreased by \$201,979 or 51.1 percent in 2010 compared to 2009. Non-operating revenues decreased in 2009 by \$123,897 or 45.7 percent compared to 2008.

### **Using This Annual Report**

The System's financial statements consist of three statements – a Balance Sheet; a Statement of Revenues, Expenses, and Changes in Net Assets; and a Statement of Cash Flows. These financial statements and related notes provide information about the activities of the System, including resources held by the System but restricted for specific purposes by contributors, grantors, or enabling legislation.

### **The Balance Sheet and Statement of Revenues, Expenses, and Changes in Net Assets**

Our analysis of the System's finances begins on this page. One of the most important questions asked about the System's finances is, "Is the System as a whole better or worse off as a result of the year's activities?" The Balance sheet and the Statement of Revenues, Expenses, and Changes in Net Assets report information about the System's resources and its activities in a way that helps answer this question. These statements include all restricted and unrestricted assets and all liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the System's net assets and changes in them. You can think of the System's net assets – the difference between assets and liabilities – as one way to measure the System's financial health, or financial position. Over time, increases or decreases in the System's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the System's patient base and measures of the quality of service it provides to the community, as well as local economic factors to assess the overall health of the System.

### **The Statement of Cash Flows**

The final required statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities. It provides answers to such questions as "Where did cash come from?" "What was cash used for?" and "What was the change in cash balance during the reporting period?"

## The System's Net Assets

The System's net assets are the difference between its assets and liabilities reported in the Balance Sheet on page 9. The System's net assets increased in 2010 by \$1,935,491 (9.0 percent) and increased \$486,380 (2.3 percent) in 2009, as you can see from Table 1.

A significant component of the change in the System's assets is the change in cash and cash equivalents. Cash increased \$2,183,813 or 78.6 percent in 2010 and decreased \$139,529 or 4.8% in 2009.

## Operating Results and Changes in The System's Net Assets

In 2010, the System's net assets increased by \$1,935,491 or 9.0 percent, as shown in Table 2 on the next page. This increase is made up of very different components, and it represents an increase compared with the increase in net assets for 2009 of \$486,380.

### Operating Income

The first component of the overall change in the System's net assets is its operating income – generally, the difference between net patient service revenues and the expenses incurred to perform those services. In the past two years, the System has reported an operating income. Income in 2010 increased by \$1,710,624 or 220.0 percent higher than the income reported in 2009. Operating income in 2009 increased by \$754,415 or 3,281.2 percent.

The primary components of these changes in operating incomes are:

- An increase in total operating revenue of \$2,976,745 in 2010 and an increase of \$2,673,144 in 2009.
- Decrease in fees for outside individuals and organizations of \$596,040 in 2010 and an increase of \$1,244,649 in 2009.
- An increase in employee compensation and benefits of \$1,645,864 or 7.9 percent in 2010 compared to an increase of \$148,757 or .7 percent in 2009. The employee compensation portion of the increase is \$1,024,561 in 2010. This increase is due to a cost of living wage increase, hiring a director for the psychiatric unit, and adding a second hospitalist. The remaining increase of \$621,303 in 2010 is for employee benefits due to wage increases as well as an increase in health insurance cost.

A new 10-bed inpatient psychiatric unit was opened in July 2008, increasing the number of beds for the hospital from 49 to 59. A total of 3,060 psychiatric days were recorded for 2010, a 46.1 percent increase from 2,095 days in 2009, the first year in operation. This unit is a geriatric unit, accepting patients age 55 and older.

The fees for outside individuals and organizations decreased in 2010 due to canceling the agreement with the company that started and managed the inpatient psychiatric unit for the first year. These services have now been hired locally.

#### **Nonoperating Revenues and Expenses**

Nonoperating revenues consist primarily of investment income, noncapital grants and contributions, and interest expense. Investment income decreased from \$249,090 in 2009 to \$132,919 in 2010. This is a decrease of \$116,171, or 46.7 percent due to the continued reductions in investment rates. Noncapital grants and contributions decreased \$121,920 in 2010 primarily due to a decrease in contributions. Interest expense decreased \$40,272 in 2010 due to debt reductions.

#### **Grants and Contributions**

The System receives grants and contributions from various state and federal agencies for specific programs. These are discussed in detail in Note A to the financial statements.

The System also receives proceeds from an endowment that is to aid indigent patients.

#### **The System's Cash Flow**

Changes in the System's cash flows are consistent with changes in operating incomes and non-operating revenues and expenses, discussed earlier. The System generated cash flows from operating activities in 2010 of \$5,324,824 or 124.4 percent more than in 2009. In 2009 the System generated \$2,372,927 or 25.9 percent more in cash flows from operating activities than in 2008.

### **CAPITAL ASSET AND DEBT ADMINISTRATION**

#### **Capital Assets**

At the end of 2010, the System had \$22,419,564 invested in capital assets, net of accumulated depreciation, as detailed in Note G to the financial statements. In 2010, the System purchased new equipment costing \$1,185,018, exclusive of building and land additions. \$1,614,802 was spent to acquire new equipment in 2009 which included a new MRI. The System spent \$481,787 for new equipment in 2008.

## **Debt**

At year-end, the System had \$16,395,932 in revenue bonds, capital lease obligations and notes payable obligations outstanding as detailed in Note H to the financial statements. The System's formal debt issuances – revenue notes – cannot be issued without approval of the Lincoln County Board of commissioners. The amount of debt issued is subject to limitations that apply to the County and its component units as a whole. There have been no changes in the System's debt ratings in the past two years.

## **Other Economic Factors**

Payment methodologies and reimbursement in the future are subject to ever changing regulations and laws which will have an impact on the system's financial position and results of operations.

Americhoice and Amerigroup are the two Managed Care Organizations for TennCare. They replaced Blue Cross TennCare Select in our part of the state. Reimbursement rarely changes from the Managed Care Organizations noted above.

Likewise the System is continuing to actively recruit physicians of general and specialty for the success of its operations. A second hospitalist was added this past year along with two family practice physicians. A search for an orthopedic surgeon and an OB GYN has begun, along with a part time ENT.

Another factor is the System is also continually evaluating the addition of services that we do not currently offer. An example would be lithotripsy services that were added this past year.

## **Contacting the System's Financial Management**

This financial report is designed to provide our patients, suppliers, taxpayers, and creditors with a general overview of the System's finances and to show the System's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer, at Lincoln County Health System, 106 Medical Center Blvd., Fayetteville, TN 37334.

LINCOLN COUNTY HEALTH SYSTEM  
NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Reporting Entity*

The Lincoln County Health System is owned by Lincoln County, Tennessee, ("the County" and "Primary Government") with interest vested in the Lincoln County Board of Commissioners. The Health System is not a legal entity separate and apart from the Primary Government and accordingly, it is blended as an enterprise fund as part of the financial statements of the Primary Government. The Health System is governed by the Health System Committee ("the Committee"), consisting of four members appointed from the Lincoln County Board of Commissioners and a physician appointed from the medical staff of Lincoln Medical Center. Each committee member serves a three-year rotational term.

*Principles of Departmental Combination*

The Health System's financial statements include the following financial activities also referred to herein as "departments": Lincoln Medical Center (the "Medical Center"), Lincoln Medical Center EMS (the "Ambulance Service"), Lincoln Medical Home Health and Hospice (the "Home Health Care"), Patrick Rehab-Wellness Center (the "Wellness Center") and Lincoln and Donalson Care Centers (the "Care Centers"). All significant interdepartmental transactions have been eliminated.

The Medical Center provides general acute health care services for Lincoln County and surrounding areas. It is licensed for 49 acute care beds and 10 geropsych beds. The Ambulance Service provides emergency medical transportation services. The Home Health Care provides skilled nursing, therapy and personal care services. The Patrick Rehab-Wellness Center provides centralized rehabilitation, health education, therapy and other related programs and services to other departments of the Health System and to local businesses, industries and residents. The Lincoln Care Center and Donalson Care Center provide long-term health care services. They are licensed for 145 intermediate-level and 125 skilled-level care beds. The Donalson Care Center is also licensed for 24 beds for assisted living services.

The Medical Center's financial statements include Lincoln Medical Center Auxiliary Gift Shop (the "Auxiliary"). The Auxiliary is not a separate legal entity and it is subject to financial accountability to the Committee. As of and for the year ended June 30, 2010, the Auxiliary's total assets, current assets, and net assets totaled \$72,351, that are reported as restricted for other purposes in the balance sheet. Their income from operations totaled \$11,230. During 2010, the Auxiliary made noncapital and capital contributions totaling \$27,432 to the Medical Center. As noted above, these interdepartmental transactions have been eliminated in the financial statements.

*Basis of Accounting*

The Health System uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus. Accordingly, revenues are recognized when earned, and expenses are recognized when incurred.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the Health System enterprise fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Health System has elected not to follow subsequent private-sector guidance.

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

*Use of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Deposits*

The Health System's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition, excluding restricted cash held for patient trust funds. State statutes authorize the Health System to invest in obligations of the U.S. Treasury, bank certificates of deposit, State approved repurchase agreements and pooled investment funds, consisting of State or local bonds, rated A or higher by a nationally recognized rating service. The carrying amount for deposits approximates fair value.

*Investments*

Investments consist of restricted cash by contributors and investments (primarily bank certificates of deposit and money market mutual funds) held for internally designated purposes by the Health System, and funds legally restricted for debt service requirements and held by a trustee under an indenture agreement. The carrying amount for investments approximates fair value.

*Supplies*

Supplies are stated at cost (first-in, first-out method) that approximates the lower of cost or market.

*Capital Assets*

Capital assets are stated at cost, less accumulated depreciation that is computed on the straight-line method over the estimated useful life of the asset. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. There was no interest cost capitalized on borrowed funds for the years ended June 30, 2010 and 2009, respectively.

Contributed capital assets are reported at their estimated fair value at the time of their donation.

Major expenditures for property and those that substantially increase useful lives are capitalized. Maintenance, repairs and minor renewals are expensed as incurred.

*Grants and Contributions*

From time to time, the Health System receives grants and contributions from individuals and private organizations. Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements are met. Grants and contributions may be restricted either for specific operating purposes or for capital purposes. When both restricted and unrestricted resources are available for use, the Health System uses the restricted resources first, then the unrestricted resources as they are needed. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as nonoperating revenues. Amounts restricted to capital acquisitions are reported after nonoperating revenues and expenses.

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

*Compensated Absences*

The Health System's employees earn paid time off ("PTO") benefits for vacation, sick, and holiday leave at varying rates that may accumulate up to a specified maximum depending on years of service. In the event of termination, an eligible employee is paid for accumulated PTO benefits. The estimated amount of PTO payable is accrued when earned and reported as a current liability in the accompanying financial statements.

*Deferred Financing Costs*

Financing costs incurred for issuance of bonds are amortized over the term of the respective bond issue using the straight-line method. Amortization expense was \$48,562 and \$49,021 for the years ended June 30, 2010 and 2009, respectively.

*Charity Care*

The Health System provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Health System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

*Income Taxes*

The Health System, as an instrumentality of Lincoln County, Tennessee, is exempt from income taxes.

*Risk Management*

The Health System is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; employee injuries and illnesses; natural disasters; medical malpractice; and employee health, dental, and accident benefits. The Health System maintains commercial insurance coverage for claims arising from such matters. Settled claims in the past three years have not exceeded insurance coverage. There were no significant reductions in coverage compared to the prior year.

*Net Assets*

Net assets of the Health System are classified in the following components. *Net assets invested in capital assets, net of related debt* consist of capital assets net of accumulated depreciation and reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. *Restricted expendable net assets* are noncapital net assets that must be used for a particular purpose, as specified by creditors, grantors, or contributors external to the Health System, including amounts deposited with trustees as required by revenue bond indentures, as discussed in Note E. *Restricted nonexpendable net assets* equal the principal portion of permanent endowments of which the Health System has none. *Unrestricted net assets* are remaining net assets that do not meet the definition of the other components.

*Operating Revenues and Expenses*

The Health System's statement of revenues, expenses and changes in net assets distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing patient health care services—the Health System's principal activity. Therefore, no additional segment financial information or disclosures are presented.

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Patient service revenue is recorded at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. Settlements under reimbursement agreements with third-party payors are estimated and recorded in the period the related services are rendered and are adjusted in future periods as adjustments become known or as years are no longer subject to audit, review or investigation. Laws governing the third-party programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

Other operating revenues include charges for sale of medical and pharmaceutical supplies, medical transcripts, cafeteria sales, educational training services, etc.

Investment income, nonexchange revenues, grants and contributions received for purposes other than capital asset acquisition, are reported as nonoperating revenues.

Operating expenses are all expenses incurred to provide health care services, other than financing costs.

The Health System receives payments on a periodic basis from an endowment fund for the benefit of eligible patients. The endowment fund is legally separate from the Health System and under the control of an independent trustee. Therefore, it is not included in the Health System's financial statements.

*Reclassifications*

Certain reclassifications have been made in the 2009 financial statements to conform to the 2010 financial statements presentation. Such reclassifications had no effect on the results of operations as previously reported.

NOTE B: DESIGNATED NET ASSETS

Unrestricted net assets include designated net assets by the Health System totaling \$7,895,126 and \$7,788,870 as of June 30, 2010 and 2009, respectively, for specific purposes such as future capital improvements, insurance and debt service as described in Note E. The designated funds remain under the control of the Health System which may at its discretion later use the funds for other purposes.

NOTE C: CHARITY CARE

Charges foregone for services and supplies furnished under the Health System's charity care policy totaled \$511,033 and \$272,126 and for the years ended June 30, 2010 and 2009, respectively.

NOTE D: NET PATIENT SERVICE REVENUE

A summary of the payment arrangements with major third-party payors follows:

Medicare – Medical Center inpatient care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Medical Center outpatient services to Medicare beneficiaries are paid using a prospective payment system based on the patient's ambulatory patient classification group. Geropsych services, ambulance services, and rehab services related to Medicare beneficiaries are paid based upon a cost/fee screen reimbursement methodology.

Care Center skilled nursing care services and Home Health Care services to Medicare beneficiaries are paid based on prospective payment arrangements. Care Center Medicare payments are based on a blend of the Care Center's specific cost and a regional prospective payment rate. The rate varies according to a patient classification system that is based on patient clinical, diagnostic, and other factors. Home Health Care payments for services to Medicare beneficiaries are based on the patient's resource group classification for patient clinical, functional, and service level factors.

LINCOLN COUNTY HEALTH SYSTEM  
NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE D: NET PATIENT SERVICE REVENUE (CONTINUED)

Each department is reimbursed at a tentative rate with final settlement determined after submission of an annual cost report by the department and audit thereof by the Medicare fiscal intermediary. The Health System's Medicare cost reports have been audited by the fiscal intermediary through June 30, 2007.

Medicaid - The Medicaid program for acute care services was replaced by a waiver program, TennCare, as approved by the Health Care Financing Administration ("HCFA"). Services to program beneficiaries are provided under contract with various managed care organizations through the State of Tennessee TennCare program. Payments for Medical Center inpatient services are paid based either upon a prospective per diem rate or per discharge rate. Payments for Hospital outpatient, Ambulance, Wellness Center, and Home Health Care services are paid based upon a percentage of charges or per diem.

Care Center services rendered to Medicaid program beneficiaries are reimbursed at per diem rates determined by the State of Tennessee Comptroller's Office. The rates for both intermediate care (level I) and skilled care (level II) program beneficiaries are paid on a prospective per diem basis subject to a statewide ceiling for each rate.

Others - The Medical Center, Ambulance Service, and Wellness Center have entered into payment agreements with certain commercial insurance carriers and managed care health plans. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined per diem rates.

The Medical Center received \$28,203 and \$19,379, from an endowment fund for the years ended June 30, 2010 and 2009, respectively, for patient care that is included in net patient service revenue.

NOTE E: DEPOSITS AND INVESTMENTS

The Health System's carrying amount of deposits was \$4,963,836 and \$2,780,023 and the bank balance was \$5,294,075 and \$2,850,429 as of June 30, 2010 and 2009, respectively. The Health System's carrying amount for restricted cash and investments, excluding amounts held under an indenture agreement, was \$8,004,140 and \$7,925,169 and the bank balance was \$7,936,502 and \$7,882,341 as of June 30, 2010 and 2009, respectively. The bank balances totaling \$13,230,577 are either insured by the Federal Deposit Insurance Corporation or Tennessee Bank Collateral Pool. The bank balances are not subject to custodial credit risk.

*Interest Rate Risk*

For an investment, this is the risk that a change in interest rates will affect the fair market value of investments held. The Health System has established a debt service reserve fund under an indenture agreement for repayment of the Series 1998 bonds. The reserve fund consists of a money market fund that normally invests at least 80% of its assets in U. S. Treasury securities and repurchase agreements for those securities. Its value as of June 30, 2010 was \$1,083,808. Generally, these investments maintain a dollar weighted average maturity at 60 days or less. These investments are exposed to declines in fair values due to interest rate changes. The Health System's exposure is mitigated through the limited maturities of the investments.

The Health System currently has no formal policy addressing interest rate or custodial credit risks.

NOTE F: NOTES RECEIVABLE ARRANGEMENTS

The Medical Center has advanced money to physicians to assist in the establishment of their medical professional practices. Advances are to be repaid by cash payment or continuation of the physicians' medical practices for a certain period based upon the terms of these arrangements. Net advances to physicians totaled \$171,582 and \$0 for the years ended June 30, 2010 and 2009, respectively. Net repayments from physicians totaled \$0 and \$47,885 for the years ended June 30, 2010 and 2009, respectively. The Health System provided provisions for continuation of the medical practices under these arrangements totaling \$22,701 and \$134,479 for 2010 and 2009, respectively. As of June 30, 2010 and 2009, net advances totaling \$223,286 and \$74,405, respectively, were due under these arrangements.

NOTE H: LONG-TERM DEBT (CONTINUED)

The annual requirements to amortize all long-term debt outstanding as of June 30, 2010 are as follows:

	<u>\$ 16,395,932</u>	<u>\$ 6,383,003</u>

*Series 1998*

The Series 1998 Hospital Facility Lease Revenue and Tax Bonds were issued in the total amount of \$15,000,000 to construct and purchase equipment for the new Medical Center built in 2001. The bonds are the ultimate obligation of Lincoln County, Tennessee. The Series 1998 bond agreement contains various covenants, including the establishment of a Debt Service Reserve Fund for repayment of the bonds, and maintenance of a certain debt service coverage ratio. For the year ended June 30, 2010, the Health System complied with the restrictive covenants including the required debt service covenant ratio.

The bonds maturing May 1, 2009 through May 1, 2013 are not subject to optional redemption. The bonds maturing on or after May 1, 2014 have been redeemed by advance refunding in August 2004 and June 2007. See Series 2004 and Series 2007 bonds below for further information.

*Series 2001*

The Series 2001 General Obligation Refunding and Public Improvement Bonds were issued in the total amount of \$4,060,000 to purchase furniture and equipment for the Medical Center and to refund \$1,010,000 of existing Wellness Center and Care Centers' debt. The bonds are the ultimate obligation of Lincoln County, Tennessee. The bonds mature May 1, 2011 without the option of prior redemption. Bonds maturing on or after May 1, 2012 have been redeemed by advance refunding in June 2007. See Series 2007 bonds below for further information.

*Series 2004*

In a prior year, the Health System defeased a portion of the Series 1998 bonds by issuance of \$7,115,000 Series 2004 Hospital Facility Lease Revenue and Tax Refunding Bonds and placing the proceeds of the bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Health System's financial statements. At June 30, 2010, \$6,625,000 of the bonds outstanding are considered defeased.

The Series 2004 bonds are the ultimate obligation of Lincoln County, Tennessee. The bonds maturing May 1, 2009 through May 1, 2013 are not subject to redemption prior to maturity. The bonds maturing May 1, 2014 and thereafter are subject to redemption on or after May 1, 2013 and thereafter, as a whole or in part, at any time, at the redemption price plus interest accrued to the redemption date. The Series 2004 bond agreement contains various covenants, including the maintenance of a certain debt service coverage ratio. For the year ended June 30, 2010, the Medical Center did comply with the debt service coverage ratio.

NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE H: LONG-TERM DEBT (CONTINUED)

*Series 2007*

In a prior year, the Health System defeased portions of the Series 1998 and Series 2001 bonds by issuance of \$4,960,000 Series 2007 Hospital Facility Lease Revenue and Tax Refunding Bonds and \$1,905,000 Series 2007 General Obligation Refunding Bonds and placing the proceeds of the bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Health System's financial statements. At June 30, 2010, \$6,655,000 of the bonds outstanding are considered defeased.

Both Series 2007 bonds are the ultimate obligation of Lincoln County, Tennessee. Both Series 2007 bonds are subject to redemption prior to maturity, as a whole or in part, at any time, at the redemption price plus interest accrued to the redemption date for bonds maturing after May 1, 2017. The Series 2007 bonds contain various covenants, including the maintenance of a certain debt service coverage ratio. The unrefunded Series 1998 and Series 2004 bonds are on a parity lien with the Series 2007 bonds. For the year ended June 30, 2010, the Medical Center did comply with the debt service coverage ratio.

*Other Debt*

The note payable and capital lease obligations are secured by the related property and equipment, respectively. The gross amount of assets recorded under capital leases and the accumulated amortization/depreciation is recorded in the balance sheet and described in Note G. The future minimum lease payments and the net present value of these minimum lease payments are included above in the annual requirements to amortize outstanding long-term debt.

The capital outlay note is a general obligation of Lincoln, County, Tennessee.

NOTE I: PENSION PLAN

*Medical Center, Ambulance Service, Home Health Care, and Wellness Center*

Employees of the Medical Center, Ambulance Service, Home Health Care, and Wellness Center are included in the Lincoln County Courthouse Employees' Pension Plan.

*Plan Description*

Employees of Lincoln County Courthouse Employees' Pension Plan are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan (the "Plan") administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with 5 years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979, become vested after 5 years of service and members joining prior to July 1, 1979, were vested after 4 years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Lincoln County Courthouse Employees participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building; Nashville, Tennessee 37243-0230 or can be accessed at [www.treasury.state.tn.us](http://www.treasury.state.tn.us). LINCOLN COUNTY HEALTH SYSTEM  
NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE I: PENSION PLAN (CONTINUED)

*Funding Policy*

Lincoln County Courthouse Employees' Pension Plan requires employees to contribute 5.0 percent of earnable compensation.

Plan members are required to contribute at an actuarially determined rate. The current rate is 5.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for Lincoln County Courthouse Employees' Pension Plan is established and may be amended by the TCRS Board of Trustees. The Health System contributions for participating departments for the years ending June 30, 2010, 2009, and 2008 were \$502,444, \$462,425, and \$441,309, respectively, equal to the required contributions for each year.

*Care Centers*

The Care Centers adopted a defined contribution pension plan, under Sections 401(a) and 457 of the Internal Revenue Code, covering all employees who are 21 years of age and have completed 1,000 hours of service. Participants become fully vested after six years (20% after 2 years plus 20% for each subsequent year). Participants become eligible to retire at the age of 60 or completion of 5 years of service, whichever is later. The plan provides for early retirement at the age of 55 and the completion of 30 years of service. Eligible participants may contribute a portion of their salary, up to the legal limit established by the Internal Revenue Code. The Care Centers will match up to 50% of the employee's contribution up to the first 3% of gross pay. Employer and employee contributions under this plan totaled \$28,743 and \$30,204 and \$96,013 and \$98,476 for the years ended June 30, 2010 and 2009, respectively.

*Deferred Compensation Plan*

The Health System offers an optional deferred compensation plan to its employees created in accordance with Section 457 of the Internal Revenue Code. This plan is available to all employees on a voluntary basis and allows participants to defer a portion of their current income until future years to shelter such funds and earnings from federal taxation until withdrawal. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

The plan is administered through a third-party administrator, The Hartford Group. The Health System does not perform the investing function and has no fiduciary accountability for the plan. Thus, plan assets and any related liabilities to plan participants have been excluded from the Health System's financial statements.

NOTE J: RISK MANAGEMENT

The Health System contracts with Blue Cross of Tennessee to provide a self-insured group health insurance plan to eligible employees and their eligible dependents, as defined in the contract. The Health System has also purchased reinsurance for claims paid in any one-contract year, in excess of \$90,000 per member, which includes employees and their eligible dependents. Claims are paid on a monthly basis by Blue Cross with a settlement at the end of each quarter for the excess or deficit of premiums paid by the Health System over or under claims paid by Blue Cross.

Claims expense and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported (claims lag).

LINCOLN COUNTY HEALTH SYSTEM  
NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE J: RISK MANAGEMENT (CONTINUED)

As of June 30, 2010 and 2009, the Health System accrued \$531,752 and \$158,277 respectively, for an estimated claims lag. Changes in the reported liability for 2010 and 2009 resulted from the following:

	<u>2010</u>	<u>2009</u>
Balance, beginning of year	\$ 158,277	\$ 144,674
Current year claims and settlements	2,306,346	1,581,376
Claim payments	<u>(1,932,871)</u>	<u>(1,567,773)</u>
Balance, end of year	<u>\$ 531,752</u>	<u>\$ 158,277</u>

The Committee has internally designated cash to use for payment of future insurance premiums. As of June 30, 2010, this internally designated cash, including interest earned, totaled \$158,262.

NOTE K: CONCENTRATIONS OF CREDIT RISK

The Health System grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements and managed care health plans. The following is a summary of the mix of accounts receivable from third-party payors and patients as of June 30:

	<u>2010</u>	<u>2009</u>
Medicare	31%	36%
Medicaid	17%	13%
Other third-party payors	19%	22%
Patients	<u>33%</u>	<u>29%</u>
	<u>100%</u>	<u>100%</u>

NOTE L: MANAGEMENT AGREEMENT

The Health System has an agreement with Quorum Health Resources, LLC, ("QHR"), to provide management services and certain key personnel for a five year period ended June 30, 2010. This agreement was renewed for a fifteen month period, ending September 30, 2011. Management fees are subject to annual adjustment by an inflation factor as defined in the agreement. Management fees paid for 2010 and 2009 were \$664,146 and \$645,898, respectively. Total payments to QHR for 2010 and 2009 were \$702,301 and \$665,334, respectively, which includes reimbursement for travel, dues, and key personnel who provide services to the Health System.

NOTE M: CONTINGENCIES AND COMMITMENTS

The Health System is involved in litigation arising in the ordinary course of business. The ultimate outcome of the litigation is unknown at the present time. Accordingly, no provision for any liability that might result has been made in the accompanying financial statements. After consultation with legal counsel, management estimates that those matters not covered by insurance will be resolved without material adverse effect on the Health System's financial position or results of operations.

Leases that do not meet the criteria for capitalization are classified as operating leases with related rentals charged to operations as incurred. The Health System leases various equipment and property under operating leases that can be canceled under terms less than one year.

LINCOLN COUNTY HEALTH SYSTEM  
NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE M: CONTINGENCIES AND COMMITMENTS (CONTINUED)

The following is a schedule by year of future minimum noncancelable lease payments as of June 30, 2010:

The cost and accumulated depreciation related to the medical office building is included in property and equipment (see Note G) as follows:

Cost	\$ 3,569,499
Accumulated depreciation	<u>(856,940)</u>
Net Book Value	<u>\$ 2,712,559</u>

NOTE N: LINCOLN COUNTY HEALTH SYSTEM FOUNDATION

The Lincoln County Health System Foundation ("Foundation") is a legally separate, tax-exempt supporting organization closely related to the Health System. The Health System does not control the timing or amount of receipts from the Foundation or have the ability to access the resources from the Foundation. Accordingly, the net assets of the Foundation are not reported by the Health System.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Health System Committee  
Lincoln County Health System  
Lincoln County, Tennessee

We have audited the financial statements of the Lincoln County Health System (as described in Note A to the financial statements) as of and for the year ended June 30, 2010, and have issued our report thereon, dated October 18, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Health System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Health System's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Health System's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Health System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Health System Committee and management and is not intended to be and should not be used by anyone other than these specified parties.
